FROM GAZIANTEP TO THE WORLD.

Founded in Gaziantep in 2009, MODDESIGN designs seat covers that make car interiors more personal, refined and practical. Our universal and vehicle-specific options are developed with different cars and drivers in mind. We combine leather, suede, linen and fabric textures with a choice of colours, stitching and patterns.

Our journey from Gaziantep now reaches 22 countries through exports. With more than 10,000 customers, we serve a wide range of needs and tastes. We see every car as a space that reflects its owner's style, and every seat cover as a detail that completes that space.

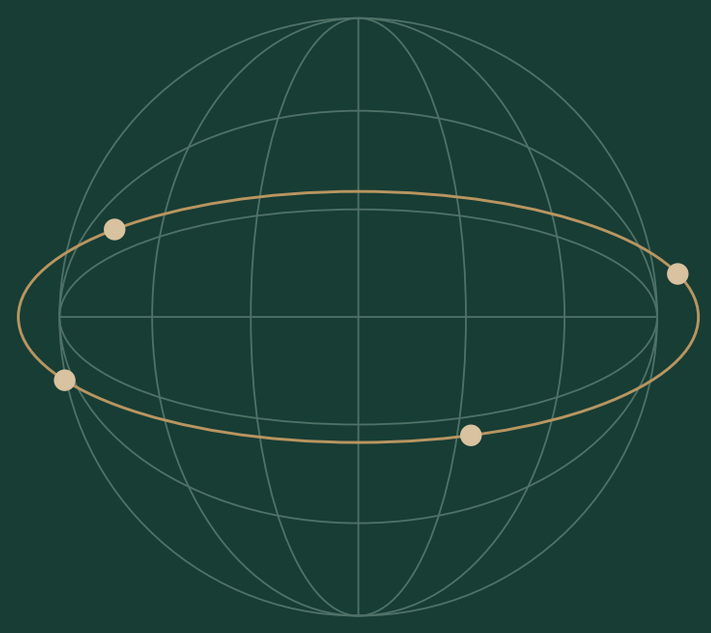

GT / TAN & BLACK

So far in 2026, we have covered 10,203 seats with MODDESIGN. Behind that number are thousands of customers choosing a fresh look for their cars. Since the beginning, our focus has remained the same: bringing appearance, texture and everyday use together. We develop our collections to help every customer find a design that suits their style.
